📍 Alexandria, Egypt 🔗 omar-elsaadany2002 🐛 BugMaker69

PROFILE

Passionate Mobile Developer with experience in Flutter and Android Native (Kotlin, Jetpack Compose). Skilled in UI/UX design, state management (Cubit/BLoC), REST API integration, SQLite, and cross-platform app development. Strong problem-solving abilities and team collaboration.

EDUCATION

Computer Science Dept.

Faculty of Computers and Information, KafrElSheikh University

2020 – 2024

KafrElSheikh, Egypt

• **CGPA:** 3.17, **Graduated:** 2024.

PROJECTS

DropZ

Developed by Flutter based e-commerce and delivery app allowing users to browse products, place orders, and track deliveries in real time. The app provides a secure checkout process, notifications, and order history.

Fit Track (DEPI Project)

Developed to help users monitor their workouts, track progress, and achieve fitness goals. Users can create personalized workout plans, log exercises, view progress analytics, and set reminders.

Servfix (Graduation Project)

Android App Developed by Kotlin based platform connecting users with skilled service providers such as carpenters, etc. The app allows users to browse services, view provider profiles, book appointments, rate and review providers, and track real-time availability.

COURSES

Software Development - Mobile App Development

Digital Egypt Pioneers Initiative - DEPI

04/2024 – 10/2024

Alexandria, Egypt

Extensive training in Android Native (Kotlin, Jetpack Compose) and Flutter development. Gained hands-on experience in:

- State management (Cubit/BLoC), MVVM/MVI architecture, modular app design
- REST API integration, JSON parsing, real-time data handling
- SQLite database, Git version control, unit testing, debugging
- Soft skills and English communication
